✓ Terrace

We are pleased to announce a new collaboration with the esteemed building company Edyco Levante. We are excited to bring you some eye catching designs that can be modified to suit your personal requirements. We are showcasing three styles of build which can be altered to an individual style if required. These are all built using high quality materials giving the completed build a feel of style and elegance. If as the client you would like something completely different the architects are happy to collaborate to achieve your personal paradise (this service may incur extra fees).

The builder has numerous building plots in the areas of Paradon and Encebras, allowing you the luxury of choosing your perfect location (building land is not included in the build price).

Do not hesitate to contact us for more information regarding build specs and plot locations.
